

VITALIS VISION | THE KURUSH WHITE PAPER

OFFICIAL GOVERNANCE EDICT V3.3 OFFICIAL

May 2026

1. EXECUTIVE SUMMARY

Vitalis Vision is a sovereign production hub bridging the gap between ancient cultural heritage and modern decentralized finance. We monetize the "Architecture of Will" through high-fidelity media production (Aeterna Chorus) and stoic philosophical analytics (Marc Vitalis). While our core is formed by the **10,000 Immortals**, our ultimate mission is global: building a decentralized infrastructure of will for **8 Billion Hearts**. The ecosystem is powered by the \$KURUSH token, a deflationary utility asset designed for long-term sovereignty.

2. THE MISSION

Our mission is the digital preservation of human discipline and history. We do not simply create content; we build an infrastructure of will.

- **Aeterna Chorus:** Sacred ancient polyphony.
- **Marc Vitalis:** Stoic analysis and strategic literary works.
- **The Legion:** A community of 10,000 disciplined participants worldwide.

3. TOKENOMICS: THE \$KURUSH ASSET

The \$KURUSH token is the native currency of the Empire, minted on the BNB Smart Chain (BEP-20). It serves as the primary utility asset for accessing exclusive media, governance rights, and ecosystem benefits.

INITIAL VALUATION: The acquisition price is fixed at **1 \$KURUSH = \$0.01 USD**.

- **Total Supply:** 539,000,000 \$KURUSH (Fixed).
- **Network:** BNB Smart Chain.

Allocation	Percentage
Strategic Reserve / Treasury	40%
Marketing & Global Presence	20%
Liquidity Provision	20%
Core Development	10%
General Airdrop Pool (Oct 29 Activation)	10%

3.3 VESTING & LOCK-UP SCHEDULE

To ensure long-term ecosystem stability and protect the value of **\$KURUSH** from market volatility, the following release schedule is strictly enforced:

- Strategic Reserve & Private Investors (40%): 20% unlocked at TGE (October 29). The remaining 80% is locked and released linearly at 10% per month over 8 months.
- Core Development & Team (10%): 6-month full cliff (complete lock-up). Following the cliff, tokens are released linearly at 5% per month.
- Liquidity Provision (20%): 100% locked in protocol liquidity for 24 months to ensure deep market stability.
- General Airdrop Pool (10%): 100% unlocked at TGE for the official Legion activation on October 29.
- Marketing & Global Presence (20%): Released dynamically based on ecosystem expansion requirements and exchange listing milestones.

4. THE DEFLATIONARY ENGINE (10/10/10)

To ensure sustainable growth, 30% of all ecosystem revenue (Amazon Book Sales, Spotify/Apple Music Royalties) is allocated as follows:

1. **10% Buyback & Burn:** Systematic reduction of circulating supply to increase scarcity.
2. **10% Legion Rewards:** Loyalty dividends for active community members and holders.
3. **10% Philanthropy:** Funding the preservation of historical heritage and archaeological research.

5. THE PHYSICAL FOUNDATION: THE MONUMENT

Our digital sovereignty is anchored in the physical representation of the founding edict. The Imperial Cylinder serves as the seal of our project's parameters and historical lineage. It bears the mark of the 539,000,000 **\$KURUSH** supply and the sacred activation date: **October 29, 2026**.

6. THE LEGION HIERARCHY

Access to the \$KURUSH ecosystem is tiered based on contribution and rank within the Legion. This hierarchy ensures that those who contribute most to the expansion of the Empire are recognized and rewarded accordingly.

Rank	Contribution	Token Amount	Airdrop Weight
SENATOR	\$10,000	1,000,000 \$KURUSH	100x + Governance
CENTURION	\$1,000	100,000 \$KURUSH	10x
IMMORTAL	\$100	10,000 \$KURUSH	1x (Core Elite)
SEEKER	\$10	1,000 \$KURUSH	Basic Access
